Visit our website for an updated calendar at ITMnow.com

Have a computer that's running slow? These programs should help speed it up!

Antivirus

- AVG Free - <http://free.avg.com>
- Windows Defender - <http://www.microsoft.com/security/pc-security/windows-defender.aspx>
- McAfee - <http://home.mcafee.com/downloads/free-virus-scan>

Manual Scanners

- Malwarebytes - <https://www.malwarebytes.org/>
- SuperAntiSpyware - <http://www.superantispyware.com/>
- SpyBot Search and Destroy - <https://www.safer-networking.org/dl/>

Rescue CD's (Use <http://www.imgburn.com/> to burn the image - Win 10 has this feature built in)

- AVG Rescue CD - <http://www.avg.com/us-en/avg-rescue-cd>
- Anvi Rescue CD - <http://www.anvisoft.com/rescue-disk.html>

Other CD's

- MemTest 86 - <http://www.memtest86.com/>
- Ultimate Boot CD - <http://www.ultimatebootcd.com/download.html>

Gen Purpose Software

- CCleaner - <https://www.piriform.com/ccleaner/download>
- Defraggler - <https://www.piriform.com/defraggler>
- Speccy - <https://www.piriform.com/speccy>
- Recuva - <https://www.piriform.com/recuva>

Other things to do

- Update your software - offers better security (better than AV!!!) and performance
 - Windows Updates
 - Driver Updates - refer to speccy if you need to Google for drivers to download...
- Be CAREFUL when downloading "Free" software...
 - Most "Free" software you pay for by installing junk programs or a Trojan/Spyware...
 - Go through and uninstall unneeded software or junk programs
- Use CCleaner to limit tasks at "startup"
